A PROJECT OF SMART SOCIAL MENTORING

- «Which are the health care centers in my area?»**
- «Where can I go to handle issues that concern my papers?»**
- «Where are the playground in my area?»**
- «What concerts and other activities are happening in town these weeks?»**

These are some of the questions that we will try to answer with you at the ORIENT8 project. The project can include adult refugees and immigrants who wish to be supported in their effort to be informed and integrated in their community through their collaboration with a mentor.

The participants will connect and collaborate for 4 months with a mentor and, by also using a Welcoming Application that will be downloaded on their mobile phone, will be supported in a creative and immediate way in handling every- day challenges and difficulties in their steps towards integration.

**How can I get more information and register in the project?**

Email: **[orient8.gr@gmail.com](mailto:orient8.gr@gmail.com)**.
